

Correlations of physical properties used in the Tesseral package and

Templates of rock properties samples and lithology patterns

in text form are presented in the package directory **\Templates** folder. They can be modified and expanded by user.

*** Default (Tesseral) Correlations of Physical Properties**

* **Note:** first and last points - minimal and maximal allowed values

* **File:** _Correlations_Rock Properties_ -Tesseral-.txt

#	1 Correlations Tesseral					Thompsons Parameters				Fracturing Parameters
